2. Employees Job Description and Matching Record

The Employee *Job Description and Matching Record* provides information on the job position of the employees who apply for 'Job Rotation': job position description, qualifications and skills required for the specific job position, and reasons for requesting to participate in job rotation/exchange. Also, based on this information, employees "are matched" with other employees.

S/N	Employee Name	Current Job Position & Department	Current Job Position Description	Qualifications & Skills Required for the Current Job Position	Reasons for Requesting Job Rotation/ Exchange	Possible Employee Match
1	Example: Person A	Example: Administrative Staff, Financials Dept.				
2	Example: Person B	Example: Technician, Maintenance Dept.				
3	Example: Person C	Example: Aux. Administrative Staff, Internationalisation Dept.				

3. Annual Record of Job Rotations

The *Annual Record of Job Rotations* lists all the job shifts that take place within the organisation/company on an annual basis.

Year:

S/N	Employee	Position & Department of Origin	Position & Department of Destination	Rotation Period	Employee Signature	(HR) Manager Signature
1	Example: Person A	Example: Administrative Staff, Financials Dept.		Example: 01/01/2021 – 01/02/2021

X	LEVEL	COMMENTS
	High	
	Medium	
	Low	
	Other	

PEOPLE RESPONSIBLE (NAME AND POSITION)	DEPARTMENT

REPORT AUTHOR (NAME, POSITION, AND DEPARTMENT)	REPORT ID NO	SIGNATURE

PART B: INCIDENT OVERVIEW

INCIDENT SUMMARY

Write a summary of the incident in a few sentences. Include what happened, why, the severity of the incident, and how long the impact lasted.

Between the hour of {time range of incident, e.g. 15:45 and 16:35} on {DATE}, {NUMBER} users encountered {EVENT SYMPTOMS}.

The event was triggered by a {CHANGE} at {TIME OF CHANGE THAT CAUSED THE EVENT}.

The {CHANGE} contained {DESCRIPTION OF OR REASON FOR THE CHANGE, such as a change in code to update a system}.

A bug in this code caused {DESCRIPTION OF THE PROBLEM}.

The event was detected by {MONITORING SYSTEM}. The team started working on the event by {RESOLUTION ACTIONS TAKEN}.

This {SEVERITY LEVEL} incident affected {X%} of users.

There was further impact as noted by {e.g. NUMBER OF SUPPORT TICKETS SUBMITTED, SOCIAL MEDIA MENTIONS, CALLS TO ACCOUNT MANAGERS} were raised in relation to this incident.

TRIGGER

Describe how and when the incident was detected.

DETECTION

When did the team detect the incident? How did they know it was happening?

This incident was detected when the {ALERT TYPE} was triggered and {TEAM/PERSON} were paged.

Next, {SECONDARY PERSON} was paged, because {FIRST PERSON} didn't own the service writing to the disk, delaying the response by {XX MINUTES/HOURS}.

{DESCRIBE THE IMPROVEMENT} will be set up by {TEAM OWNER OF THE IMPROVEMENT} so that {EXPECTED IMPROVEMENT}.

ROOT CAUSE

Note the root cause of the incident, the thing identified that needs to change in order to prevent this class of incident from happening again.

- *Begin with a description of the impact and ask why it occurred.*
- *Note the impact that it had.*
- *Ask why this happened, and why it had the resulting impact.*
- *Then, continue asking "why" until you arrive at a root cause.*

List the "whys" in your postmortem documentation.

IMPACT

Describe how the incident impacted internal and external users during the incident. Include how many support cases were raised.

{SUMMARY OF INCIDENT} our users experienced this incident.

This incident affected {XX} customers, who experienced {DESCRIPTION OF SYMPTOMS}.

{XX NUMBER OF SUPPORT TICKETS AND XX NUMBER OF SOCIAL MEDIA POSTS} were submitted.

RESPONSE

Who responded to the incident? When did they respond, and what did they do? Note any delays or obstacles to responding.

After receiving a page at {XX:XX UTC}, {ON-CALL ENGINEER} came online at {XX:XX UTC} in {SYSTEM WHERE INCIDENT INFO IS CAPTURED}.

This engineer did not have a background in the {AFFECTED SYSTEM} so a second alert was sent at {XX:XX UTC} to {ESCALATIONS ON-CALL ENGINEER} into the who came into the room at {XX:XX UTC}.

RESOLUTION

Describe how the service was restored and the incident was deemed over. Detail how the service was successfully restored and you knew how what steps you needed to take to recovery.

Depending on the scenario, consider these questions: How could you improve time to mitigation? How could you have cut that time by half?

We used a three-pronged approach to the recovery of the system:

{DESCRIBE THE ACTION THAT MITIGATED THE ISSUE, WHY IT WAS TAKEN, AND THE OUTCOME}

Example: By Increasing the size of the BuildEng EC3 ASG to increase the number of nodes available to support the workload and reduce the likelihood of scheduling on oversubscribed nodes

Disabled the Escalator autoscaler to prevent the cluster from aggressively scaling-down

Reverting the Build Engineering scheduler to the previous version.

PART C: INCIDENT TIMELINE

Detail the incident timeline. Include any notable lead-up events, any starts of activity, the first known impact, and escalations.

Note any decisions or changes made, and when the incident ended, along with any post-impact events of note.

INCIDENT TIMELINE	
DATE AND TIME OF INCIDENT	DATE AND TIME OF INCIDENT IDENTIFICATION
INCIDENT CLOSURE DATE	EXPLANATION FOR INCIDENT CLOSURE (Resolved, false positive, other)

INCIDENT INVESTIGATION AND RESPONSE TIMELINE			
EVENT	ACTION TAKEN	DATE (AND TIME)	PERSON RESPONSIBLE

PART D: LESSONS LEARNT AND CORRECTIVE ACTIONS

CONTRIBUTING FACTORS

Discuss what went well in the incident response, what could have been improved, and where there are opportunities for improvement.

LESSONS LEARNT	
<i>What went well?</i>	
<i>What went bad?</i>	
<i>Where were we lucky?</i>	

Describe the corrective action ordered to prevent this class of incident in the future. Note who is responsible and when they have to complete the work and where that work is being tracked.

CORRECTIVE ACTIONS

Steps to study online courses effectively:

1. Choose a study space with reliable Internet access

You will probably need to refer to online lectures and notes when you study. Therefore, you will need a study space where your Internet access will not be interrupted. Internet access will be particularly important during things like study sessions for your class.

2. Create a Study Schedule

Maintaining a strict schedule is vital to success in an online course. Even though you may not be required to attend classes or lectures at particular times, you still need to keep up with the course material on your own time. Therefore, self-discipline is important. Set a time each week to log onto the class and study materials.

3. Be disciplined / Avoid online distractions

It can be hard to stick to a schedule for an online course. However, be strict with yourself about adhering to your schedule. Self-discipline is vital to your success in an online course.

It can be difficult to focus on your online course if you have a social media account open in another tab on your computer. When you're doing class-work, avoid browsing the Internet, checking your email, and other distractions.

4. Learn Actively

Learning happens when the neurons in your brain are active. To learn effectively, you must engage your mind. Write notes in your own words, recall information – say what you know about a topic without using notes.

5. Stay motivated

Use motivation tricks to get results. You could study while listening to your favourite music or picture yourself in an hour's time having completed the task and enjoying a well-earned break.

6. Print out any materials

Sometimes, the internet or your computer can be a distraction. It can be helpful to turn your laptop off at times to study. You should also print out things like a course schedule and syllabus.

7. Take notes on online lectures

Always take notes online as you would during a physical lecture. Sit with a pen and paper and take careful, legible notes in front of your computer. Handwritten notes increase your retention of the material better than typed notes.

8. Test yourself

Even if you don't have access to practice tests, you can still test yourself by writing down everything you remember after each new chapter or frequently asking yourself questions about what you're learning.

9. Avoid multi-tasking

Research shows that multitasking reduces the brain's ability to store new information, so if you're constantly switching between tasks, all that information will likely be going in one ear and out the other.

10. Take breaks

It's important to take breaks as you study. Do something fun, like watch TV for a few minutes or go for a brief walk. You will find yourself feeling refreshed and recharged after a quick break.

11. Make friends online

Establish connections with other online learners. You can meet up and study together; share your challenges with them; and try collaborative learning as it promotes student engagement, and deeper understanding.

Training Course Title & Provider	Duration	Description	Expected Learning Outcomes	Target Group	Compensation for Participation (if applicable)	Participants (Name, Department and Position)	Start & End Date	Assistance from Colleague (Yes/No and Kind of Support)
Example: Title: Requirements, planning, execution and measurement of social media strategies Provider and Source: Tecnológico de Monterrey, Coursera	Example: 22 hours	Example: In this course, you will learn about the elements you need to consider in order to realise your social media strategy. The cornerstone of all this is to have a proper technique that helps you step by step to carry out each stage, where everything starts with a good planning. It is also necessary to have a structure that allows you to move from planning to execution and finally to know what and how to measure the results.	Example: Improving management of commercial campaigns via social networks, within a realistic and measurable strategy.	Example: Administrative staff.	Example: 2 hours off at employees' choice	Example: E1: Name, Department, Position E2: Name, Department, Position E3: Name, Department, Position E4: Name, Department, Position	Example: 01/01/2023 – 31/05/2023 (if different for some employees, please indicate)	Example: Yes (E1 and E4) – Guidance on the Coursera platform and, probably, on some issues related to social media. CA10: Learning Agreement

BB4

BB4

Ensure effective coordination between all stakeholders and agree on roles and responsibilities

1. Learning Agreement Example

EDUCATIONAL COOPERATION AGREEMENT

BETWEEN ***** AND *****

In _____, on this day of _____,

MEETING

On the one hand, Mr./Mrs. *(name)*, *(position in the University)*, in the name and legal representation of the same, by virtue of *(reference to the legal basis)*.

And on the other hand, Mr./Mrs. *(name)*, *(position)* as legal representative, accredited with sufficient power of attorney, of *(name of the company)*, *(hereinafter, acronym of the company)*, with Legal number *(number)* and with registered office in the street *(street, number, postcode, town)*.

Both parties mutually recognise that they have sufficient legal capacity to enter into this Agreement, and to this effect.

MANIFEST

1. That the entities represented here are aware of the importance of strengthening their academic relations, within a broad framework of educational cooperation, joining their efforts to offer a better service to society by improving training programmes, and promoting the transfer of knowledge between universities and institutions and companies.

2. That both entities, considering that they have partly coinciding and complementary objectives, wish to enter into an agreement for which they formalize the present document in accordance with the following,

CLAUSES

First - Purpose of the Agreement

The purpose of the present agreement is to establish lines of collaboration between the *(name of the University)* and *(name of the company)*, which are specified in the following actions:

The field of collaboration may take the form of any activity related to the aims of both entities, and may refer, among others, to:

- Granting of scholarships/study aids
- Involvement of professionals in the teaching of the Degree.
- Participation of professionals in the co-direction of the final projects of their own degree.
- Internships for students

Second - General conditions of the agreement.

(delete sub-paragraphs which do not refer to activities which are the subject of the collaboration)

1. AWARDING OF SCHOLARSHIPS

(name of the company), will grant *(number)* scholarships, so that as many students can study the Own Degree.

The amount of each of the scholarships will be *(amount of the approved prices for the Degree / percentage of the amount)*.

Any student or staff of the company enrolled in the Degree may apply for these scholarships.

Applicants must meet the requirements established by _____ and, in any case, the access conditions and requirements established for the Degree at _____.

2. PARTICIPATION OF PROFESSIONALS IN THE TEACHING OF THE DEGREE.

(name of the company) will participate in the teaching of the Degree, collaborating in the teaching of the following subjects:

- *(name of the subject)*, teaching *(number)* hours.

(*name of the company*) will send to (*name of the University*), before the beginning of each academic year, a list of the professionals who will be teaching, as well as the number of hours that each of them will teach.

(*name of the University*) will pay (*name of the company*) or (*the collaborating teachers*) the maximum amount of (*hourly rate*) for each hour taught.

3. PARTICIPATION OF PROFESSIONALS IN THE CO-DIRECTION OF FINAL DEGREE PROJECTS.

(*name of the company*) will offer its participation in the co-direction of (*number of projects*) Final Degree Projects each academic year.

(*name of the company*) will send to (*name of the University*), within the deadlines set by the Academic Committee of the Degree, a list of the topics that can be developed by the students as Final Project of the Degree, as well as a list of the professionals who will be co-directing the project.

4. INTERNSHIPS OF DEGREE STUDENTS IN THE (COMPANY)

(*name of the company*) will offer every academic year to (*number of places*) students of the Degree Programme to carry out and supervise internships.

Third - Conditions of the work placement (*only in the event that the agreement provides for collaboration in work placements*).

1. The student's relationship with the company shall not entail any commitment other than that stipulated in this Agreement, nor does it give rise to any obligation of an employment contract.

2. Annex I, attached to this Agreement, shall indicate the personal details of the student(s) concerned, the start and end dates, the timetable, the place of development and the specific content of the placement.

3. For the follow-up of the placement, (*name of the company*) appoints (*name of the tutor*) as the responsible tutor, and on behalf of the University (*name of the tutor*).

4. No contract of employment may be concluded between (*name of company*) and the student until this Collaboration Agreement is expressly revoked or terminated in respect of the student concerned.

5. Before the start of the work placement, (*name of the University*) will take out a supplementary collective accident and civil liability policy, which will include all the students who are going to carry out the work placement.

6. (*name of the company*) shall, at the end of this Agreement, issue a certificate acknowledging the trainee for the time spent on the placement.

Fourth - Form of economic management of the Agreement.

(If the agreement involves financial commitments, the conditions shall be specified in this section. Otherwise, this clause shall be deleted).

Fifth - Joint Monitoring Committee

1. As from the signing of this Agreement, a Joint Monitoring Committee shall be set up with representatives appointed by both parties on a parity basis. This Commission shall be responsible for the planning, monitoring and evaluation of the actions derived from the Agreement.

2. The Joint Monitoring Committee shall meet whenever requested by one of the parties and shall draw up reports and proposals to the governing bodies of both parties and shall be formed:

On behalf of (*name of the University*):

- Vice-chancellor with competence in matters relating to UB-specific degrees, or the person he/she delegates.

- Director of the Degree (*name of the Degree*), or person delegated by him/her.

By (*name of company*)

- (*position*), or person delegated by him/her.

- (*position*), or person delegated by him/her.

Sixth - Commencement and duration

The duration of this Agreement shall be (*time in years*) and shall take effect from the date of signature.

It may be extended by agreement of the parties, which must be formalised two months before the expiry of the agreed period.

Seventh - Complaint

1. Either party may denounce this agreement, or terminate its commitment to participate, by giving written notice to the other party (*number*) months before the date on which it wishes to terminate or, as the case may be, the date of its extension.
2. In any case, the parties undertake to complete the development of the actions already initiated at the time of notification of the waiver.

Eighth - Interpretation of the agreement

1. This agreement is of an administrative nature, and its interpretation and development is governed by the applicable administrative legal system.
2. The resolution of any problems that may arise in the execution of this agreement shall be resolved by the Joint Monitoring Committee established in this agreement.

And, in witness whereof and for the due record of all that has been agreed, the parties hereto have signed this agreement, in duplicate and on all pages, at the place and on the date first above written.

Exercise 3 (25 points)

Read the case study below and answer the questions:

This is the transcript of a radio conversation of a US naval ship with Canadian authorities off the coast of Newfoundland in October 1995. The radio conversation was released by the Chief of Naval Operations on 10.10.95.

Americans: Please divert your course 15 degrees to the North to avoid a collision.

Canadians: Recommend you divert YOUR course 15 degrees to the South to avoid a collision.

Americans: This is the Captain of a US Navy ship. I say again, divert YOUR course.

Canadians: No. I say again, you divert YOUR course.

Americans: This is the aircraft carrier USS Lincoln, the second largest ship in the United States' Atlantic fleet. We are accompanied by three destroyers, three cruisers and numerous support vessels. I demand that YOU change your course 15 degrees north, that's one five degrees north, or countermeasures will be undertaken to ensure the safety of this ship.

Canadians: This is a lighthouse. Your call.

Questions:

1. What recommendations would you make to Americans in order to make their communication more effective?

Canadians: This is a lighthouse. Your call.

Questions:

1. What recommendations would you make to Americans in order to make their communication more effective?

Americans should focus more on the consequences of the crash and ask the reasons for why Canadians insist not to change their direction.

2. What recommendations would you make to Canadians in order to make their communication more effective?

Canadians should be more accurate in their statements and let Americans know that they were in a lighthouse from the beginning. In this way the misunderstanding would not occur.

Exercise 4 (25 points)

6. The man is open to new ideas and opportunities. - b

3. Communication Skills Supporting (Experiential) Activities

Experiential Activity 1

Back-to-back

(49 Communication Activities, Exercises, and Games (positivepsychology.com))

The activity works as follows:

- The couple sits back-to-back with an identical set of building blocks in front of each of them.
- One partner uses their blocks to create some sort of building or structure.
- The builder partner then relays a series of instructions to the other partner to help him/her build the exact same structure.
- The listener partner must try to build the same structure based on the speaker partner's instructions.

This game takes some serious teamwork and good communication, and it can be repeated as needed to help a couple build their skills.

Experiential Activity 2

Guess the Emotion

(49 Communication Activities, Exercises, and Games (positivepsychology.com))

Follow the instructions below to play this engaging game:

1. Divide the group into two teams.
2. Place on a table (or put in a box) a packet of cards, each of which has a particular emotion typed on.
3. Have a participant from Group A take the top card from the table and act out (pantomime) the emotion for his/her group. This is to be done in a fixed time limit (such as a minute or two).
4. If the emotion is guessed correctly by Group A, they receive ten points.
5. Now have a participant from Group B act out an emotion; award points as appropriate.
6. Rotate the acting opportunities between the two groups.
7. After twenty to thirty minutes of acting and guessing, call time and announce the winning team based on its point total.

If you have a particularly competitive group, consider giving a prize to the winning team.

Experiential Activity 3

(49 Communication Activities, Exercises, and Games (positivepsychology.com))

Telephone Exercise

Split your group into two even lines. At opposite ends of each line whisper a phrase or short sentence to the person on the end and tell them to pass it on using only whispers, one person at a time. They can only repeat the phrase or sentence once.

While participants are busy passing the message along to the next person in line, play music or engage them in conversation to create some white noise. This will make it a bit more difficult but it will mimic real-life conditions, where distractions abound.

When the messages have made it to the end of each line, have the last person to receive the message in each line report out on what they heard. Next, have the first person to receive the message in each line report the original message and compare it to the final message received.

Stop Listening Exercise

Split your group into two smaller groups of equal size and take one group outside the room. Tell them that they are instructed to stop listening to their partner after about thirty seconds and to be open in showing their disinterest. Tell the other group to think of something that they are passionate about and be prepared to tell their soon-to-be partner a meaningful or personally relevant story about this topic.

Bring the other group back in, put all the participants into pairs, and tell them to get started. Observe the behaviour from the listeners and the reactions from the speakers until you are sure each speaker has picked up on what is happening. Stop the conversations at this point and explain the instructions that were given to each group.

Facilitate a group discussion on the importance of listening, how to use active listening, and what indicates that someone is truly listening.

Ensure that workplace learning is tailored to adult learners needs

1. Time Management Skills Assessment Tool (Test)

This assessment tool has been developed for the evaluation of your time management skills. Thank you in advance for taking the time to use the tool.

Exercise 1 (25 points)

Read the statements and indicate (X) if they are True or False, based on your knowledge and experience.

	True	False
1. I have to check my e-mails regularly and answer the most urgent of them immediately.		
2. I have to make a list of priorities each day and work on the most urgent first.		
3. It is important to work on the tasks that I like first rather than the tasks with high priority. That is more productive.		
4. It is important to set specific and clearly defined goals, which are realistic and achievable.		
5. It is important to track how much time I actually spend on all my various priorities, so as to become more aware of my efficiency.		
6. When I am given a new assignment from my supervisor, I have to begin working on it.		
7. I should spend a lot of time on planning, because it is important for being well organised.		
8. My actions should be determined primarily by me, not by circumstances or by other people's priorities.		
9. Avoiding distractions at office is not easy.		
10. It is difficult to manage your time, when your colleagues use to disturb you.		

Exercise 2 (25 points)

Read the case study below and answer the questions.

It is Monday morning and Martha arrives at her office, starts her PC and logs in to her Outlook to check her e-mails. After fifteen minutes, she has a quick look at her Facebook notifications and call her colleague Helen to ask how she spent the weekend. When she finishes her phone call, she starts working on that report (in which is still in the beginning) that its deadline is tomorrow and she knows she won't have an extension. After spending 45 minutes on the report, her manager asks her for a short meeting. 15 minutes later is time for a cup of coffee. She sees Andrew preparing his coffee too. It has been over a week that they have not meet each other, so they spend some time chatting on how things are and what is going on. Coming back to her office, she notices that she has three new e-mails regarding an event of the company that she is responsible for. The event will be held in two months. After collecting her thoughts, she comes back to the report for 30 minutes, when a client calls her about some urgent issues that he is facing. The phone call ends after 30 minutes and it is time for Martha to go for lunch. She will work for another hour after lunch and then leave the office, as she has to pick her daughter up from school and she has the permission to leave earlier today.

Questions:

- 1. Identify the time stealers and justify.**
- 2. Identify and list Martha's time management problems.**
- 3. List two time-management strategies and explain how Martha could use them in order to overcome her time management problems.**

Exercise 3 (25 points)

George is working as a sales advisor for a Training Center in Spain. His main duties are to answer enquiries of clients and promote the seminars that the company schedules. After a survey conducted inhouse, George knows that he has to promote each seminar for four weeks (one month) in order to succeed the implementation of the seminar (at least 7 registrations). It is a department's principle to answer every enquiry within two hours from the time requested.

Below, you can find George's check list for Monday. He needs some help in order to prioritise his tasks and be efficient. Put numbers next to each task in order to help George prioritise wisely according to what is urgent.

Monday, 7th of July 2021:

- Call Mr Jonathan for "Excel Expert Programme" – He called me yesterday when I was on a day off.
- Schedule programmes for September.
- Give sales report of June to sales manager.
- "PowerPoint Presentation Seminar" on the 21st of July – Only 2 registrations so far.
- Meeting on my performance appraisal at 15.00-16.00 with HR manager.
- Update leaflets for seminars that are scheduled for August.
- Send email with information to Ms Clark for "PMP Seminar".

Exercise 4 (25 points)

You are an administrative officer in a Human Resources Development Department. Below, there are some tasks that you should do.

a) Prioritise them according to what is important and urgent.

- A staff member arrives at the reception desk of the department. He tells you that 3 days have passed since the last day of the month and he has not been paid yet. He is not very happy and wants to file a complaint.
- Your HR manager has asked for a report on the staff of a particular department. He wants it urgently (that is until tomorrow) and it looks like he will use it in a meeting next week.
- Your colleague John organises a party for his child. He should send the invitations by the end of the week (today is Wednesday) and he wants your help in designing the invitation. You have been colleagues for the last ten years and you have a very good relationship.
- A staff member will rent a new home. The company that will rent it to him has sent a letter for recommendations. The colleague wants to rent the house as soon as possible.

b) Fill in the Eisenhower matrix with the tasks above.

2. Time Management Skills Assessment Tool (Test) (Correct Answers)

This assessment tool has been developed for the evaluation of your time management skills. Thank you in advance for taking the time to use the tool.

Exercise 1 (25 points)

Read the statements and indicate (X) if they are True or False, based on your knowledge and experience.

	True	False
1. I have to check my e-mails regularly and answer the most urgent of them immediately.	X	
2. I have to make a list of priorities each day and work on the most urgent first.	X	
3. It is important to work on the tasks that I like first rather than the tasks with high priority. That is more productive.		X
4. It is important to set specific and clearly defined goals, which are realistic and achievable.	X	
5. It is important to track how much time I actually spend on all my various priorities, so as to become more aware of my efficiency.	X	
6. When I am given a new assignment from my supervisor, I have to begin working on it.		X
7. I should spend a lot of time on planning, because it is important for being well organised.		X
8. My actions should be determined primarily by me, not by circumstances or by other people's priorities.		X
9. Avoiding distractions at office is not easy.	X	
10. It is difficult to manage your time, when your colleagues use to disturb you.		X

Exercise 2 (25 points)

Read the case study below and answer the questions.

It is Monday morning and Martha arrives at her office, starts her PC and logs in to her Outlook to check her e-mails. After fifteen minutes, she has a quick look at her Facebook notifications and call her colleague Helen to ask how she spent the weekend. When she finishes her phone call, she starts working on that report (in which is still in the beginning) that its deadline is tomorrow and she knows she won't have an extension. After spending 45 minutes on the report, her manager asks her for a short meeting. 15 minutes later is time for a cup of coffee. She sees Andrew preparing his coffee too. It has been over a week that they have not meet each other, so they spend some time chatting on how things are and what is going on. Coming back to her office, she notices that she has three new e-mails regarding an event of the company that she is responsible for. The event will be held in two months. After collecting her thoughts, she comes back to the report for 30 minutes, when a client calls her about some urgent issues that he is facing. The phone call ends after 30 minutes and it is time for Martha to go for lunch. She will work for another hour after lunch and then leave the office, as she has to pick her daughter up from school and she has the permission to leave earlier today.

Questions:

1. Identify the time stealers and justify.

- A quick look at her Facebook.
- Call her colleague Helen to ask how she spent the weekend.
- They spend some time chatting on how things are and what is going on.

2. Identify and list Martha's time management problems.

- She is not prioritising.
- She can not distinguish the important tasks from the urgent ones.
- She does not make a schedule for the day.

3. List two time-management strategies and explain how Martha could use them in order to overcome her time management problems.

· **To do list:**

- Create tasks.
- Break them into smaller, manageable tasks.
- Assign them.
- Set start and due dates.
- Set estimate time for completing them and track the time spent.

· **Just say no:**

It is okay if you don't want to upset anyone but only agree to deadlines that you can handle in reality. If your to-do list is already full and you receive a request to complete an additional task on the same day, decline it. Do not agree to work on a task or help a colleague until you have some spare time. Keep your priorities straight and simple.

· **Avoid time stealers:**

Preschedule your breaks.

Exercise 3 (25 points)

George is working as a sales advisor for a Training Center in Spain. His main duties are to answer enquiries of clients and promote the seminars that the company schedules. After a survey conducted inhouse, George knows that he has to promote each seminar for four weeks (one month) in order to succeed the implementation of the seminar (at least 7 registrations). It is a department's principle to answer every enquiry within two hours from the time requested.

3. Time Management Skills' Supporting Activities

1. Time Squared, inspired by "Ever Hour Blog"

(13 Best Time Management Games & Activities To Unite Your Team (ever-hour.com))

- Print 3 pages with 24 squares that represent the 24 hours of a day.
- Share the 1st page with the participants.
- Explain that each square represents one hour of a day.
- Ask them to fill out the squares with their routine activities. E.g. eating 4 hours = 4 squares, sleeping 7 hours = 7 squares etc.
- Share the 2nd page with the participants.
- Ask them to fill out the squares on the second page with the non-working time that they spend at their workplace. E.g., coffee-breaks, talk shops, calls to mom, checking social networks etc.
- Share the 3rd page with the participants.
- Ask them to summarise the data from the 1st and 2nd pages on the 3rd page. Use different colours to tell them apart. E.g., green for the 1st page, blue for the 2nd, red for the 3rd.
- Explain to your colleagues that the uncoloured squares = "productive time".
- The task can be done throughout the day, so that your coworkers have more precise results on their papers, allowing them to evaluate time efficiently.

Points to discuss:

- How could you reevaluate your time?
- Would you change anything in your statistics?
- Are there any steps that you could take to increase your productive time?
- How would you rearrange your time to have some extra time for rest?

2. Overcooked!

(13 Best Time Management Games & Activities To Unite Your Team (ever-hour.com))

Overcooked! is a restaurant time management game. The idea behind the game is to serve various food to your customers, try to keep them happy and cook everything in absurdly stressful conditions – like a hot air balloon or in the middle of the street. Sounds like a normal day at the office, right? The game offers lots of obstacles to overcome, diversity of cooking recipes, and lots of fun, especially in multiplayer mode.

Time management skills improved:

- Delegation and team-coordination skills by ordering and organising the cooking process.
- Rapid decision-making by dealing with portals, fires, moving floors and change of settings.
- Dealing with time-pressure skills as every level is time-limited.
- Team-work in multiplayer mode.

What to discuss with your team:

- How did it feel to be under pressure in the kitchen?
- How did you learn to manage the process?
- What would you do differently?

2. Competency Framework LEVEL5 Example

COMPETENCE – COMMUNICATION

Communication goes beyond the messages we send – it also includes how we receive messages. The learner is competent in communicating with others in a target oriented way, is able to establish a relation of trust and shows integrity through his/her way to communicate. The learner is aware of different communication styles and techniques and that different situations and settings require different styles and techniques of communication. Communication is used as a means for interaction with other people. Through appropriate communication s/he can identify problems, can discuss them and find and implement solutions.

The most important knowledge, skill, and attitudes relevant to this competence are:

Knowledge: The learner should be in a position to...

- name different communication styles
- explain how to listen and interpret messages and how to read between the lines
- explain how to react to hidden messages
- tell that different people/cultures/contexts have different communication styles
- define other ways of communication and expression, e.g. non-verbal communication
- tell that the efficiency of communication is dependent on the way one uses different communication media
- list basic ways of communication in order to comprehend others and to make oneself understood

Skills: The learner should be in a position to...

- deal with the own repertoire of communication in an unknown situation
- adapt to other communication codes
- listen to the communication codes of other people/cultures/communities
- interpret the communication codes of other people/cultures/communities
- reflect on unconscious codes and consciously apply or neglect them
- choose the right code and react accordingly to a given situation
- distance oneself from group attitudes and reflect on their behaviour
- apply group communication codes (e.g., in language and behaviour, using rites)
- send & receive information successfully
- cooperate with others, generously sharing their assistance with no immediate expectation of reciprocity

Attitudes: The learner should be in a position to...

- influence others to reflect on own communication behaviour by valuing other persons' communication
- keep a balanced emotional behaviour during communication
- self-regulate for the sake of the communication and for the respect of others (e.g., to avoid certain words, arguments)
- appreciate the virtues of good communication
- become open to other communication styles
- relate the way of communicating with another person to their mood and background
- probe on improvement of communication
- become open to other people's communication styles
- respect others and their different communication styles

Applying networking strategies in new contexts.	Incorporation/ internalisation	Finding it important that other people in the sector are open and active as networkers. Enjoying networking and inspiring others to network for the sake of their personal and professional development.
4.	Knowing when (implicit understanding)	Knowing how and when to apply the different networking techniques for the purpose of personal and professional development. Knowing how to act in different networking structures.	Discovering acting independently	Deliberately seeking networking opportunities. Searching for the appropriate networking techniques and opportunities for own purpose. Choosing the right networking techniques for the right purpose and to act appropriately.	Self-regulation/ determination	Feeling the need to be proactive in networking. Refraining from own position for the sake of the network.
3.	Knowing how	Being familiar with different networking theories, techniques and practices for sharing, learning, advocacy and building contacts.	Deciding/ selecting	Taking part in networking activities as they are offered by others. Deliberately selecting certain situations for networking and networking techniques.	Motivation/ appreciation	Value networking in general. Feeling like a networker and seeing things through the networkers' perspective.
2.	Knowing why (distant understanding)	Knowing that other people have different knowledge, expertise and contacts and that through networking and sharing one can learn, gain weight in decision making and/or build useful contacts.	Using, imitating	Occasionally taking part in non-structured networking activities. Acting in a network on given tasks.	Perspective taking/interest	Being curious to actively participate in a network.
1.	Knowing what	Knowing that networking is an essential competence that can help contribute to own personal and professional development.	Perceiving	Spotting and recognising the values and opportunities of networking (but without acting)	Self-orientation	Relating networking to one's own situation.

COMPETENCE – RELIABILITY

Reliability describes the quality of being reliable and trustworthy. A reliable person is someone who you can trust to behave well or do what you expect him/her to do, on the one hand, and who is eager to take responsibility and to interact with other persons in a way, that relationships of trust can be built, on the other hand. Reliability also includes the concept of commitment in interpersonal cooperation and collaboration. This means that a person is able to communicate in an appropriate way and he/she is able to meet agreements and appointments in order to contribute to healthy and functioning relationships both in private and in professional settings.

The most important knowledge, skill, and attitudes relevant to this competence are:

Knowledge: The learner should be in a position to...

- explain that especially in the interaction with other people, trust and reliability are important aspects of healthy interpersonal relationships
- explain why it is beneficial in certain contexts to show reliability
- tell about own limits and ways of self-reflection

Skills: The learner should be in a position to...

5. Knowing where else (strategic transfer)	Knowing that learning in every aspect is a means of self-development and provides a profound base for building up a new existence in a new environment. Knows how to support others to develop themselves through learning and thereby improve their own life situation.	Developing, constructing, transferring	Developing new ways of learning in a variety of contexts, interacting with others in order to use synergies in learning and to share experiences and new gained knowledge.	Incorporation/ internalisation	Having internalised the concept of learning, motivation and being curious about all aspects of life in order to improve the personal situation. Inspiring others to make use of learning and to be open-minded.	
4. Knowing when (implicit understanding)	Knowing how to act properly in a situation when a learning challenge is set – or any other challenges which require a adaptation or flexibility in the behaviour.	Discovering acting independently	Reflecting upon one's learning and development and recognising learning needs in order to cope with the new environment. Actively choosing and searching for new possibilities to acquire new learning – formal (languages and professional training courses) and informal (learning about the society, culture).	Self-regulation/ determination	Being determined to reflect on one own learning. Being open to look for new sources of learning and showing a positive attitude towards new "life challenges" to collect new experiences.	
3. Knowing how	Knowing how to learn for specific requirements. Has knowledge of learning resources and understands how to use them.	Deciding/ selecting	Being able to select the appropriate learning content/course offers from the learning opportunities, which are provided.	Motivation/ appreciation	Appreciating the learning opportunities, which are offered to him/her. Being motivated to learn as much as possible. Is curious to get to know his/her new living environment.	
2. Knowing why (distant understanding)	Knowing why learning of new things is essential for the self-development and to get along with requirements in a new living environment.	Using, imitating	Using one's resources to meet the requirements to learn to get along in his/her new learning environment. Using learning opportunities which are provided.	Perspective taking/interest	Being interested and motivated to learn new things and values the possibility to broaden his/her experience and/or knowledge.	
1. Knowing what	Knowing that new situations require learning new things.	Perceiving	Recognising that new situations require a lot of things to learn.	Self-orientation	Having a positive attitude towards learning in general	

COMPETENCE – PROBLEM SOLVING

Problem solving is comprised of actions, attitudes and knowledge, which are goal-directed in complex situations with no easy routine solutions. Even if the final aim is clearly defined (but sometimes it is not), the problem solver might not be aware of all steps towards its achievement. The problems might vary in complexity, context and might require different resources or tools. Therefore, the learner needs to investigate the issues, to identify or develop options and selecting solutions to problems which occur in the role. In order to be completed successfully the learner needs to be motivated, curious and eager.

The most important knowledge, skill, and attitudes relevant to this competence are:

Knowledge: The learner should be in a position to...

- explain the need to use problem solving in situations, where there is no predefined solution
- name different problem-solving techniques
- list ways to modify and combine different problem-solving techniques according to the specific problem
- explain how to transfer problem-solving knowledge to other people

Skills: The learner should be in a position to...

- recognise when a problem has no immediate solution
- define the concrete problem and its background
- apply predefined problem -solving techniques
- analyse the problem situation
- plan and reason towards problem solution
- combine and modify different problem-solving techniques
- discover new, complex, and personalised solutions to meet the specific requirements
- invent new problem-solving techniques

Attitudes: The learner should be in a position to...

- feel that problem-solving competences are useful become eager to look for solutions
- become curious
- become intrinsically motivated to solve problems in general
- become autonomous
- feel the need to help other people in applying problem solving techniques

5.	Knowing where else (strategic transfer)	Knowing a large portfolio of problem-solving strategies that can be applied in new contexts.	Developing, constructing, transferring	Planning new strategies to solve problems, invent/plan new strategies/approaches to solve problems.	Incorporation/ internalisation	Being enthusiastic about solving problems and encouraging other people and co-operate with them to solve certain problems.
4.	Knowing when (implicit understanding)	Knowing variations and modifications to solving problems in different contexts and how to actively use his/her resources. Knowing different ways/instruments to tackle the task.	Discovering acting independently	Discovering and applying complex solutions in different private and professional contexts.	Self-regulation/ determination	Restraining from personal wishes to tackle the task. Openness to find new solutions and to take them on board.
3.	Knowing how	Knowing theoretically what to do to solve the problem/to tackle the task and to reach the goal.	Deciding/ selecting	Applying given problem-solving actions. Choosing between different given possibilities to solve the problem.	Motivation/ appreciation	Being motivated to solve the problem and to deal with the task.
2.	Knowing why (distant understanding)	Knowing the reason for the task or the background of the problem.	Using, imitating	Being instructed to take specific actions to tackle with the problem/task.	Perspective taking/interest	Curiosity in finding solutions to the problem.
1.	Knowing what	Knowing that there is a specific task and it is necessary to solve it in order to reach the goal.	Perceiving	Understanding the problem without taking action.	Self-orientation	Not interested in solving a problem or in thinking and applying possible solutions to it.

COMPETENCE – CRITICAL THINKING

Critical thinking describes the competence to question an issue or a situation, an idea, assumption without accepting anything given at a face value. The learner will identify and analyse the given issue/situation in a systematic way without automatically jumping to conclusions. He/she is curious to assess the given issue/situation and analyse the underlying arguments/ideas and is able to argue the considerations in an understandable way. He/she is able to identify inconsistencies and errors when reasoning, reaching to a conclusion in a systematic way by applying experience and evaluating available information. It is the ability to go beyond the memorization, information recall and facts description, to analyse, evaluate, interpret, or synthesize information or experience in order to form or criticize an idea or argument and not simply accept all the given information without questioning.

The most important knowledge, skill, and attitudes relevant to this competence are:

Knowledge: The learner should be in a position to...

- list different critical thinking methods
- tell the appropriate use of critical thinking
- explain how to evaluate and respond to counterarguments

Skills: The learner should be in a position to...

- analyse information or experience
- evaluate information or experience
- interpret information or experience
- synthesize information or experience
- examine ideas, concepts or situations from multiple perspectives, including different cultural perspectives;
- develop well-reasoned, persuasive questions and arguments
- respond to counterarguments
- identify themes or patterns and making abstract connections across subjects

Attitudes: The learner should be in a position to...

- become curious to test information and to seek evidence, being open to new ideas
- show scepticism about non proven information, not believing everything he/she is exposed to
- become willing to consider that his/her ideas may be wrong when facing new information, experience or evidence that states otherwise
- become motivated to submit his/her ideas and experiments to peer review
- become willing to accept criticism

5.	Knowing where else (strategic transfer)	Knowing how to apply critical thinking strategies in both known and unknown situations. Knowing how to strategically use critical arguments in various contexts.	Developing, constructing, transferring	Being able to recompose arguments or information after a critical assessment including new aspects. Providing constructive insight to an unknown problem. Thinking in a coherent way to recognise critical aspects and to act accordingly.	Incorporation/ internalisation	Having internalised to assess issues in a critical way in order to identify and to process conclusions according to context and objectives.
4.	Knowing when (implicit understanding)	Knowing when critical thinking is adequate. Knowing how to analyse more thoroughly, broadly and frequently, including validating sources of information in order to come to a holistic solution.	Discovering acting independently	Researching additional information and arguments on a given issue to include it into the analysis. Being able to explain the line of thought/results of the critical evaluation of an information or solution to others in an understandable way.	Self-regulation/ determination	Being determined to reach adequate and constructive conclusions through analysis and critical thinking. Being confident to engage with complex and/or unfamiliar problems and concepts.
3.	Knowing how	Knowing how to look through different lenses and how to analyse diverse information in order to come to a constructive conclusion.	Deciding/ selecting	Applying different known strategies to look at an issue from different angles and questioning the given information – including different cultural perspectives.	Motivation/ appreciation	Being motivated to test and question own and others' judgements, opinions and ideas. Valuing critical thinking and being motivated to expand own competence to do so.
2.	Knowing why (distant understanding)	Knowing why it is important to consider different views on a given issue.	Using, imitating	Taking different views on an issue only when instructed to or following the example of others.	Perspective taking/interest	Openness to look at an issue from different perspectives. Being interested in seeing issues through different lenses and also from different cultural points of views.
1.	Knowing what	Knowing the meaning of critical thinking.	Perceiving	Perceiving issues that require further analysis or that may be taken from different point of views.	Self-orientation	Being aware that there are different ideas but not necessarily willing to explore them.

COMPETENCE – CONFLICT MANAGEMENT

The learner is competent in solving conflict situations through the application of specific techniques. The person is able to identify the roots of the conflict and develop a proper strategy to solve it, he/she is familiar with the concepts of accommodation, mediation, facilitation and compromising and is able to apply the right technique to the specific situation. The person takes into consideration rights, needs, feelings and values of all parties involved to reach a solution to the conflict. The learner is aware of the positive potential of conflict management techniques and finds ways to promote them in the group/to others. S/he exhibits foresight to identify and defuse conflicts before they occur.

The most important knowledge, skill, and attitudes relevant to this competence are:

Knowledge: The learner should be in a position to...

- list different conflict management strategies and techniques;
- name ways to integrate conflict management strategies in activities involving groups/others

Skills: The learner should be in a position to...

- identify problems and find solutions in a group of people with different requests and values
- apply different conflict management techniques and strategies according to the situation

Attitudes: The learner should be in a position to...

- become determined to solve conflicts
- respect others' feelings, rights, requests, and values
- become motivated to improve his/her conflict management techniques
- inspire others to use conflict management techniques

5.	Knowing where else (strategic transfer)	Knowing intuitively how to avoid conflict situations or how to help others in looking for a good solution and compromises. Knowing how to apply conflict management techniques in different contexts.	Developing, constructing, transferring	Identifying and defusing conflicts before they occur. Elaborating ways for compromise and conflict solving strategies; Taking initiatives and being active with the parties to apply different conflict management techniques.	Incorporation/ internalisation	Being motivated to inspire others to learn and apply conflict management techniques to solve their own situations. Feeling the need to improve other people's conflict management competences.
4.	Knowing when (implicit understanding)	Having a profound knowledge on which measure can be taken to solve a specific conflict in different situations. Knowing when a suitable measure should be implemented.	Discovering acting independently	Choosing an own way to listen to and express all arguments; con and pro, to discuss them and to find the best solution in solving a problem / compromise.	Self-regulation/ determination	Being motivated to work on one's own conflict management techniques, to improve methods on how to apply management techniques and to adapt them to new situations.
3.	Knowing how	Knowing theoretically certain processes and techniques of conflict solving.	Deciding/ selecting	Making a conscious choice on which conflict management technique seems more pertinent for the given case.	Motivation/ appreciation	Appreciating the strength of one's own conflict management techniques; Feeling important that other members of the group use techniques with conflict management. Being motivated to learn more about conflict management techniques.
2.	Knowing why (distant understanding)	Knowing why it is important to use different conflict management techniques to solve different situations.	Using, imitating	Acting as instructed in a conflict situation. Occasionally using conflict management techniques.	Perspective taking/interest	Valuing conflict management techniques; Generally feeling that conflict management techniques are useful to solve conflict situations.
1.	Knowing what	Knowing that there are techniques to solve conflicts.	Perceiving	Recognising ways of behaviour in acting in conflict situations or/and avoiding conflict situations.	Self-orientation	Feeling the need to apply a conflict management technique to certain situations.

COMPETENCE – PRODUCTIVE AUTONOMY

The learner is independent. This involves self-determination, well-developed abilities for self-regulation and self-direction, awareness regarding the own strengths and resources to use them autonomously in a productive way. The autonomous person appreciates the benefits and the challenges of the freedom he/she has and enjoys this independence. This competence also relates to the ability to recognise the situations and to be motivated to use them to create opportunities for oneself. Further, productive autonomy is closely related to taking responsibility for own decisions and actions and to deal with the consequences of autonomous decisions.

The most important knowledge, skill, and attitudes relevant to this competence are:

Knowledge: The learner should be in a position to...

- name scope and limits of his/her own skills, powers and resources
- tell he/she is accountable for his/her decisions
- explain that his/her own decisions may affect others
- explain there might be limits for taking own decisions/actions
- list the skills and resources (internal and external) that are needed to turn a situation in an opportunity
- explain the benefits and challenges of acting autonomously and creating new opportunities for himself/herself

Skills: The learner should be in a position to...

- recognise his/her own skills, resources and limits
- self-reflect and analyse situations and to act accordingly in a productive way
- act in an independent, productive and self-directed manner
- organise the needed resources to implement actions on his/her own

Attitudes: The learner should be in a position to...

- feel responsible for his/her own actions and decisions
- appreciate rewards of autonomy (freedom, sense of achievement)
- adopt a general positive attitude towards autonomous and self-directed actions
- inspires/motivates others to act independently/autonomously and for using their own powers and resources

COMPETENCE – RESILIENCE

The learner is competent in planning resources and activities in order to quickly recover from change and/or difficulties and adapt to new life contexts. This involves knowledge of main values and characteristics of the new environment, as well as of own capabilities and resources to create opportunities for oneself. The learner is able to act accordingly and adapt and develop strategies to set up plans in different life and working contexts. Being flexible and having a positive attitude towards the future is key to turn challenges in opportunities and adapt successfully to new situations.

The most important knowledge, skill, and attitudes relevant to this competence are:

Knowledge: The learner should be in a position to...

- explain how to deal with new situations
- name the meaning and the benefits of being resilient
- list resilience strategies and behaviours

Skills: The learner should be in a position to...

- adopt own as well as external resources to recover from difficulties and adapt to new life contexts
- implement resilience strategies and behaviours
- select from a repertoire of behaviours to better cope with a difficulty
- plan activities according to the new situation

Attitudes: The learner should be in a position to...

- acquire a positive attitude towards change
- adapt his/her habits to new life contexts for the safe of his/her own wellbeing
- to become motivated to quickly recover from difficulties
